

YOUR BENEFITS WITH OUR **FreePack®**

Producing individually-wrapped processed cheese slices (IWS) using a continuously operating production method.

+ Highest efficiency, productivity & reliability in the industry

- » Well shaped, equal and stable stacks
- » Sophisticated control and automation system – easy to operate
- » Integrated, completely controlled chill water system
- » Weight control system is included in the standard machine
- » Start and ramp-up of production fast and easy, means minimal product losses with every start of production
- » Hygiene and cleaning optimised by cooperation with Hochland
- » Parts with contact with product are easy to separate for cleaning

+ Minimised operation cost thanks to

- » Highest OEE
- » Low film consumption, small sealing seam
- » One week production 6 days / 24 hours, without cleaning
- » Low utility consumption
- » No external vacuum system necessary
- » One operator can run two machines (left and right design)

+ Minimised wear & tear thanks to

- » Each sealing station has its own servo drive, no main drive
- » Contact-free longitudinal sealing
- » Friction-free forming station (pre-voiding station)
- » Low- wear sealing gear
- » Cross cutting system, durability of cutting knives (20 to 40 million cuts possible without stop, 80 to 160 million cuts without replacement)
- » Repair and wear optimised by cooperation with Hochland
- » Any parts easy to change, designed in a module style

+ Minimum floor space requirement

- » Higher production performance at smaller space requirements
- » Left and right design available
- » **FreePack® 500, 1000 and 2000** available
- » Two individual products at the same time on one **FreePack® 2000**
- » Any parts easy to change, designed in a module style

FreePack®

natec

Hochland Natec GmbH, Gold Peg International Pty Ltd and Natec USA LLC joined forces to form an international network of food processing companies – the **Natec Network**. Always team spirited and leading in flexibility, quality, and innovation the network delivers customised equipment and production lines for key challenges in food processing and at every stage of business development. In order to meet the customers' requirements, even at the start of a project, the network uses its own specific service framework which combines extensive experience and professional expertise along with a drive for innovation.

The result is technology and support that is crucial in contributing to the value and development of our customers in the food production industry. The love of generating and implementing cutting edge ideas with great impact, as well as the willingness to tailor technology that can exceed the customer's targets, lets the **Natec Network** always strive to unlock business and human potential in a sustainable way with integrity – and thus be a partner who provide more than just technical infrastructure.
