- » Parts with contact with product are easy to separate for cleaning

✓ MINIMISED OPERATION COST THANKS TO

- » Highest OEE
- » One week production 6 days / 24 hours, without cleaning
- » Low utility consumption
- » Cleaning with integrated CIP

✓ MINIMISED WEAR AND TEAR THANKS TO

- » Repair and wear optimised by cooperation with Hochland
- » Any parts easy to change, designed in a module style

✓ MINIMUM FLOOR SPACE REQUIREMENT

- » Higher production performance at smaller space requirements
- » Left and right design available
- » FreeSlice 300 / 1500 / 3000 available

✓ PRODUCT SAFETY

- » No icing of the steel belts, cooling only with water
- » Integrated laminar flow system
- » No risk of recontamination

✓ DIFFERENT APPLICATIONS POSSIBLE

- » CubeCutter, StickCutter, CrossCutter, SOS Stacker

natec
NETWORK

**SUCCESS GENERATING
FOOD TECHNOLOGY**

Hochland Natec GmbH, Gold Peg International Pty Ltd and Natec USA LLC are joining forces to form an international network of companies – the Natec Network. These well-known market players draw on many years of experience in high-quality machinery and plant engineering for the industrial food production sector. The innovative spirit, as well as the willingness to tailor the technology completely according to the customer's needs and business goals, make the network a partner who provide more than just technical infrastructure. The innovative and customised machinery and plants are key factors in contributing to the value and development of the customers in the food production industry.
